## Former ExxonMobil Engineer Joins ClearPath Policy Team

**Washington, DC – Tuesday, January 5, 2021** – ClearPath announced [Jena Lococo](#) has joined as a Policy Analyst at ClearPath. She will work across ClearPath’s clean energy technology portfolio, with a focus on carbon capture, utilization, and storage, petrochemicals, Environmental Protection Agency (EPA) regulations, and regulatory reforms that can accelerate technology deployment.

“We are thrilled for Jena to join our policy team, where she brings private sector engineering and regulatory experience working on small to major clean energy projects to reduce global carbon dioxide emissions,” said Rich Powell, Executive Director of ClearPath. “Her air quality and compliance expertise will be an asset as ClearPath continues to advance carbon capture and smarter regulatory policies.”

Prior to joining ClearPath, Jena was an Environmental and Regulatory Planner at ExxonMobil, where she managed regulatory approvals and environmental impact identification processes for global capital projects. For the past year, she was based in Guyana, where she led countrywide data collection and reporting efforts and permitting for onshore energy projects. Previously, Jena was based in Houston, Texas, where she was responsible for air quality compliance for ExxonMobil’s operations in Wyoming, including managing a cross-functional team to improve ExxonMobil’s Carbon Capture and Sequestration (CCS) program.

Jena holds Bachelor’s and Master’s Degrees in Environmental Engineering as well as a Professional Engineering license in Environmental Engineering.

### **ABOUT CLEARPATH**

ClearPath (501(c)(3)) was established by businessman Jay Faison in 2014. ClearPath’s vision is that America leads in affordably powering the world with reliable clean energy. ClearPath's

mission is to develop and advance conservative policies that accelerate clean energy innovation. To advance that mission, ClearPath develops cutting-edge policy and collaborates with academics and industry. Learn more at [clearpath.org](http://clearpath.org).
